### Memorandum

DATE: December 18, 2009

TO: ALS Providers

FROM: Kevin O'Loughlin, Sr., B.S., MICP *KL*

SUBJ.: 2010 ALS Policy and Skills Review (PSR) Registration

Effective January 1, 2010 all accredited paramedics in San Joaquin County are required to complete one PSR within six (6) months of the expiration of their current accreditation (e.g., accreditation expires in June, the class can be taken as early as January). Personnel that plan to attend the class will need to register using the link on our web page under upcoming training and events. Personnel should register for the class at least thirty (30) days prior to the date of their selected class. These classes are also open to EMT's and MICN's. However, in those cases in which class size limitations must be considered San Joaquin County accredited paramedics will be given priority. 3 Hours of instructor-based continuing education will be provided by San Joaquin County EMS Agency #39-0001.

If you have any questions, please contact me.
